On 10 November 2005 Airbus announced the A318 Elite. The Airbus A318 Elite is aimed at the medium-range market for flights of up to 4,000-nautical-mile (7,400 km) range, with a choice of two cabin layouts seating up to 18 passengers, and powered by CFM engines. Comlux Aviation became the launch customer by ordering three A318 Elite aircraft.

The A320 was the model aircraft for Airbus that pushed the company to become a household name. With more than 400 orders before the aircraft even took flight (especially compared to the earlier A300 that only had 15 orders), the A320 series would quickly become a staple product for the company. However, only one year after the A320 family launched, Airbus announced a further derivative of ...

Airbus A320 family - Wikipedia

Read Free Airbus A318 Engine Run Procedures

The A318 can fly further than the A220-100. Quite a bit further (700km). This may be due to the fact that the A318 has more powerful engines than the A220, and can carry 3,000 more liters of fuel. But more fuel and more power doesn't mean more efficient, and it's likely that the engines are more expensive to run. Winner: A318
