Design Thinking Is Not Thinking Like A Designer, It's ...

All this is to say that it helps to understand
and the different types of thinking
involved in the design process. Not all
design challenges will require the same
types of thinking. Thinking like a
designer simply means being flexible
and adaptable enough to apply different
types of intelligence as required.

How Designers Think - 2nd Edition

Designers have to be detached from concepts and bit and pieces until they work in the proper context. Designers have to be willing to completely trash the work they've done on a project and start over. It happens more frequently than you might think. And it's not because the design is bad or the concept is wrong.
