theologian, and author (described in his own day as a "natural philosopher") who is widely recognised as one of the most influential scientists of all time and as a key figure in the scientific revolution. His book *Philosophiæ Naturalis Principia Mathematica* (Mathematical ...

Isaac Newton Philosophical Writings Author

Sir Isaac Newton, FRS, was an English physicist, mathematician, astronomer, natural philosopher, and alchemist. His *Philosophiæ Naturalis Principia Mathematica*, published in 1687, is considered to be the most influential book in the history of science. In this work, Newton described universal gravitation and the three laws of motion, laying the groundwork for classical mechanics, which dominated
