The World's Sustainable Development Goals Aren't ...

Author: Donella Meadows Date: 1998 Abstract: This paper grew out of a five-day workshop on sustainable development indicators attended by a small subset of the two hundred members of the Balaton Group. Indicators are partial reflections of reality, based on uncertain and imperfect models. We need many indicators because we have many worldviews — but indicators may help narrow the differences ...

Indicators and Information Systems for Sustainable Development

The key sustainable development objective is to limit emissions of greenhouse gases which may contribute to global warming and climate change. Indicators of relevance are greenhouse gas radiative forcing rates, global temperature change, and UK emissions of greenhouse gases. Indicators.

Sustainability Indicators

To monitor sustainable development in the European Union, an EU SDG indicator set was developed under the leadership of Eurostat in 2017. This set of roughly 100 indicators structured along the 17 goals of the United Nations 2030 Agenda is intended to measure progress towards the SDGs in an EU-European Union context.
