William Julius Wilson's 1978 book "The Declining Significance of Race" argued that economic class had gradually become more important than race in determining the life trajectory of African Americans.. During his recent tenure as the Kluge Chair in American Law and Governance, Wilson re-examined the arguments put forth in his book, to see if they apply to the situation today.

**Declining Significance of Race**  
Wilson reflects on the nearly eight hundred research studies that claim to provide an empirical test of the arguments presented in his book The Declining Significance of Race (1978; second edition, 1980). Wilson considers representative studies that incorrectly address his book, before discussing those publications that correctly address his thesis, including those that uphold, partially ...
